

TECHNICAL RIDER – Lauren Thiel

1. General Information

Finball VR scénographie
Lauren Thiel
Head MD diploma 2025
076 534 03 94
lauren.thiel@etu.hesge.ch

Short Description:

An area to play the VR game and a film/documentary showcasing the gameplay

2. Technical Requirements

A. Equipment Provided by the Artist

List of Devices:

- 1 projector, (+audio headsets for it?)
- 2 Meta Quest 3 with their controllers

Installation:

1 table, 1 wall for projecting, 2 large areas with vinyl on the ground for VR

B. Equipment & Infrastructure Required from the Venue

- Power Supply:
Number of power outlets needed: 1
Power Consumption: projector and headset battery charging
- Internet & Network:
 - Good Wi-Fi is required
 - fast Internet is required
- Projection & Display:
 - any
 - on the table
- Lighting Conditions:
 - The VR headsets work better with light, but it could be IR lighting
- Space Requirements:
 - Minimum floor space: 2 times minimum 2x2m, to make 2 vr areas.

3. Setup & Installation Plan

- Estimated Setup Time: half a day to full day for vinyl placement
- Testing Procedure: need to test the VR if the tracking has enough light and if the wifi is fast enough
- On-Site Personnel Needed: me to launch the VR and someone so that things dont get stolen

4. Operation Guidelines

- Expected Number of Users at a Time: 2
- Daily Maintenance & Checks:

- ☐ charging the headsets

6. Dismantling & Storage

- Teardown Time Estimate: half a day
- Tools Needed for Dismantling: something to remove the vinyl ?
